INDEX TO VOLUME 12 (1971)
OF
TECHNOLOGY AND CULTURE

(R) Indicates Book Review

Pagination according to issues: January, 1–162; April, 163–397; July 398–541; October, 542–695

"The Abott Payson Usher Prize," 231

"The Acquisition of Technology by Non-initiating Countries," R. J. Ballon, 217

"Adam Smith and the Concept of the Feedback System: Economic Thought and Technology in 18th-Century Britain," O. Mayr, 1

Adventures in Research: A History of Ames Research Center, 1940–1965, E. P. Hartman, (R) 669

AERONAUTICS AND ASTRONAUTICS: Chapin, "Patent Interferences and the History of Technology," 414; Emme, "International History of Rocketry and Astronautics Symposium," 477; Hartman, *Adventures in Research*, (R) 669; Library of Congress, *Astronautics and Aeronautics*, 1968, (R) 361; Logsdon, *Decision to Go to the Moon*, (R) 360; Miller and Sawers, *Technical Development of Modern Aviation*, (R) 358; Phillips, *Technology and Market Structure: A Study of the Aircraft Industry*, (R) 664; Swenson, "American Advancement into Space," 228

Agricultural Development in Asia, R. T. Shand, ed., (R) 146

AGRICULTURE: Brown, *Seeds of Change*, (R) 146; Collins, *Sickle to Combine*, (R) 350; Danhof, *Change in Agriculture*, (R) 105; Gade, "Grist Milling with the Horizontal Waterwheel in the Central Andes," 43; Glick, *Irrigation and Society in Medieval Valencia*, (R) 104; Roy et al., *Impact of Communication on Rural Development*, (R) 368; Shand, ed., *Agricultural Development in Asia*, (R) 146; Sharrer, "Indigo Bonanza in South Carolina," 447; Smythe, *Conquest of Arid America*, (R) 514; UNESCO, *Agroclimatological Methods*, (R) 150

Agroclimatological Methods, UNESCO, (R) 150

Alberti, L. B.; *see* Gadol, J.

America Adopts the Automobile, 1895–1910, J. J. Flink, (R) 661

"American Advancement into Space," L. S. Swenson, Jr., 228

American Civilization in the First Machine Age, 1890–1940, G. Ostrander, (R) 508

Andrei Konstantinovich Nartov, F. N. Zagorsky, (R) 93

ANTHROPOLOGY (*see also* Archaeology): Clark, *Aspects of Prehistory*, (R) 628; Epstein, *Matupit*, (R) 151; Salisbury, *Vunamami*, (R) 525; Wachsmann and Kay, "Interrelations of Musical Instruments, Forms, and Cultural Systems in Africa," 399

"The Apopcalyptic Vision of Paolo Soleri," D. F. White, 75

ARCHAEOLOGY (*see also* ANTHROPOLOGY *and* INDUSTRIAL ARCHAEOLOGY): Doeringer et al., eds., *Art and Technology: Symposium on Classical Bronzes*, (R) 629; Hodges, *Technology in the Ancient World*, (R) 89; Krafft, *Dynamische und statische Betrachtungsweise in der antiken Merchanik*, (R) 630; Platt, ed., *World Archaeology*, (R) 159; Rudenko, *Frozen Tombs of Siberia*, (R) 332; Wild, *Textile Manufacture in Northern Roman Provinces*, (R) 334

"Archimedean Hydrostatic Theorems and Salvage Operations in 16th-Century Venice," A. Keller, 602

ARCHITECTURE (*see also* CIVIL ENGINEERING): Gadol, *Leon Battista Alberti*, (R) 632; Jackson, *London's Termini*, (R) 109; Kiker, *Architecture of Charles Bulfinch*, (R) 347; Kopp, *Town and Revolution*, (R) 520; Negroponte, *Architecture Machine*, (R) 380; Prager and Scaglia, *Bru-*

nelleschi, (R) 498; Smithson, *Euston Arch*, (R) 109; White, "Apocalyptic Vision of Paolo Soleri," 75
The Architecture Machine, N. Negreponte, (R) 380
The Architecture of Charles Bulfinch, H. Kirker, (R) 347
Armstrong, J. B., *Factory under the Elms: A History of Harrisville, N.H., 1774–1969*, (R) 644
ART: Carleton, *Technology and Humanism*, (R) 536; Coutts-Smith, *Dream of Icarus*, (R) 378; Doeringer et al., eds., *Art and Technology: Symposium on Classical Bronzes*, (R) 629; Rossi, *Philosophy, Technology, and the Arts in Early Modern Times*, (R) 344; Waddington, *Behind Appearance*, (R) 380
Art and Technology: A Symposium on Classical Bronzes, S. Doeringer, D. G. Mitten, and A. Steinberg, eds., (R) 629
Articulated Locomotives, L. Wiener, (R) 656
Ashley, P., (R) Lincoln, ed., *The Computer and Music*, 384
Aspects of Prehistory, G. Clark, (R) 628
Astronautics and Aeronautics, 1968, Science and Technology Division, Library of Congress, (R) 361
AUTOMATION; *see* COMPUTERS
Automation, Alienation and Anomie, S. Marcson, ed., (R) 134
AUTOMOBILES; *see* MECHANICAL ENGINEERING *and* TRANSPORTATION

BABUROV, A.; *see* Gutnov, A.
Ballon, R. J., "The Acquisition of Technology by Non-initiating Countries," 217

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION (Act of August 12, 1970: Section 3685. Title 39. United States Code)

1. Title of publication: TECHNOLOGY AND CULTURE
2. Date of filing: October 15, 1971
3. Frequency of issue: quarterly
4. Location of known office of publication: The University of Chicago Press, Journals Department, 5801 S. Ellis Ave., Chicago, Illinois 60637.
5. Location of the headquarters or general business offices of the publisher: The University of Chicago Press, Business Office, 11030 S. Langley, Chicago, Illinois 60628.
6. Names and addresses of publisher, editor, and managing editor: Publisher: The University of Chicago Press, 5801 S. Ellis Ave., Chicago, Illinois 60637; Editor: Melvin Kranzberg, Division of Special Interdisciplinary Studies, Case Western Reserve University, Cleveland, Ohio 44106; Managing editor: none.
7. Owner: Society for the History of Technology, Case Western Reserve University, Cleveland, Ohio 44106.
8. Known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages, or other securities: none.
9. For optional completion by publishers mailing at the regular rates (Section 132.121, Postal Service Manual): not applicable.
10. For completion by nonprofit organizations authorized to mail at special rates (Section 132.122, Postal Manual): The purpose, function and nonprofit status of this organization and the exempt status for Federal income tax purposes have not changed during preceding 12 months.
11. Extent and nature of circulation

	Average no. copies each issue during preceding 12 months	Actual no. of copies of single issue published nearest to filing date
A. Total number of copies printed	2100	2100
B. Paid circulation		
1. Sales through dealers and carriers, street vendors, and counter sales	0	0
2. Mail subscriptions	1626	1694
C. Total paid circulation	1626	1694
D. Free distribution by mail, carrier or other means		
1. Samples, complimentary and other free copies	69	69
2. Copies distributed to news agents, but not sold	0	0
E. Total distribution (C + D)	1695	1763
F. Office use, left-over, unaccounted, spoiled after printing	405	337
G. Total (sum of E + F - should equal net press run shown in A)	2100	2100

I certify that the statements made by me above are correct and complete.

Jean H. Sicks.
